“El projecte ‘Europeana Sport’: el patrimoni audiovisual com a altaveu per a minories” (The “Europeana Sport” project: Audiovisual heritage as a platform for minorities)

David Iglésias Franch

This speech will discuss the experience of the Centre for Image Research and Dissemination as part of the “Europeana Sport” project. The goal of this project is to provide Europeana (Europe’s digital heritage platform) with content on sport, with the aim of giving representation to minority sports. The speaker will describe a few technical matters and the participative experience in the city of Girona, essentially centred on the production of an audiovisual documentary about rugby.
